

DUDE, Where's My Spot?

By Jovanny Perez, Anthony Barrios, Karissa Schick, Areli Muñoz, Matthew Cowans

What is 'Dude, Where's My Spot?'

- Dude, Where's My Spot is a team of developers dedicated to solving a long-established and frustrating problem: finding parking at Aurora University.
- It's difficult to know what the parking situation will be like at a given time of the day.
- Students and faculty are forced to show up very early because there is no way to know if they will be able to find a spot.

Why use our app?

We have a problem at AU.

There is **NO** other app in the market that does what our app does.

There are some awesome side features in our app available to users--For FREE!

Find the average spots at any time!
